Senate Bill 187: Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 1900. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

See following Sections A-J

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse Prevention

The Governing Board recognizes the district's responsibility to educate students about the dangers of child abuse so that they will acquire the skills and techniques needed to identify unsafe situations and to react appropriately and promptly.

The district's instructional program shall include age-appropriate and culturally sensitive child abuse prevention curriculum. This curriculum shall explain students' right to live free of abuse, inform them of available support resources, and teach them how to obtain help and disclose incidents of abuse. The curriculum also shall include training in self-protection techniques.

(cf. 6143 - Courses of Study)

The Superintendent or designee shall seek to incorporate community resources into the district's child abuse prevention programs. To the extent feasible, the Superintendent or designee shall use these community resources to provide parents/guardians with instruction in parenting skills and child abuse prevention.

(cf. 1020 - Youth Services)

Child Abuse Reporting

The Board recognizes that child abuse has severe consequences and that the district has a responsibility to protect students by facilitating the prompt reporting of known and suspected incidents of child abuse. The Superintendent or designee shall establish procedures for the identification and reporting of such incidents in accordance with law.

Employees who are mandated reporters, as defined by law and administrative regulation, are obligated to report all known or suspected incidents of child abuse and neglect. Mandated reporters shall not investigate any suspected incidents but rather shall cooperate with agencies responsible for investigating and prosecuting cases of child abuse and neglect.

Mandated reporters include, but are not limited to, teachers; instructional aides; teacher's aides or assistants; classified employees; certificated pupil personnel employees; administrative officers or supervisors of child attendance; athletic coaches, administrators, and directors; administrators and employees of a licensed child day care facility; Head Start teachers; district police or security officers; licensed nurses or health care providers; and administrators, presenters, and counselors of a child abuse prevention program. (Penal Code 11165.7)

Reasonable suspicion means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse or neglect. However, reasonable suspicion does not require certainty that child abuse or neglect has occurred nor does it require a specific medical indication of child abuse or neglect. (Penal Code 11166)

Reportable Offenses

A mandated reporter shall make a report using the procedures provided below whenever, in his/her professional capacity or within the scope of his/her employment, he/she has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. (Penal Code 11166)

Any mandated reporter who has knowledge of or who reasonably suspects that a child is suffering serious emotional damage or is at a substantial risk of suffering serious emotional damage, based on evidence of severe anxiety, depression, withdrawal, or untoward aggressive behavior toward self or others, may make a report to the appropriate agency. (Penal Code 11166.05, 11167)

Any district employee who reasonably believes that he/she has observed the commission of a murder, rape, or lewd or lascivious act by use of force, violence, duress, menace, or fear of immediate and unlawful bodily injury against a victim who is a child under age 14 shall notify a peace officer. (Penal Code 152.3, 288)

Responsibility for Reporting

The reporting duties of mandated reporters are individual and cannot be delegated to another person. (Penal Code 11166)

When two or more mandated reporters jointly have knowledge of a known or suspected instance of child abuse or neglect, the report may be made by a member of the team selected by mutual agreement and a single report may be made and signed by the selected member of the reporting team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter make the report. (Penal Code 11166)

No supervisor or administrator shall impede or inhibit a mandated reporter from making a report. (Penal Code 11166)

Any person not identified as a mandated reporter who has knowledge of or observes a child whom he/she knows or reasonably suspects has been a victim of child abuse or neglect may report the known or suspected instance of child abuse or neglect to the appropriate agency. (Penal Code 11166)

Reporting Procedures

1. I. Initial Telephone Report

Immediately or as soon as practicable after knowing or observing suspected child abuse or neglect, a mandated reporter shall make an initial report by telephone to any police department (excluding a school district police/security department), sheriff's department, county probation department if designated by the county to receive such reports, or county welfare department.

When the initial telephone report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

2. Written Report

Within 36 hours of knowing or observing the information concerning the incident, the mandated reporter shall then prepare and either send, fax, or electronically submit to the appropriate agency a written follow-up report, which includes a completed Department of Justice form (SS 8572). (Penal Code 11166, 11168)

The Department of Justice form may be obtained from the district office or other appropriate agencies, such as the county probation or welfare department or the police or sheriff's department.

Reports of suspected child abuse or neglect shall include, if known: (Penal Code 11167)

- a. The name, business address, and telephone number of the person making the report and the capacity that makes the person a mandated reporter
- b. The child's name and address, present location, and, where applicable, school, grade, and class
- c. The names, addresses, and telephone numbers of the child's parents/guardians
- d. The name, address, telephone number, and other relevant personal information about the person who might have abused or neglected the child

e. The information that gave rise to the reasonable suspicion of child abuse or neglect and the source(s) of that information
The mandated reporter shall make a report even if some of this information is not known or is uncertain to him/her. (Penal Code 11167)

The mandated reporter may give to an investigator from an agency investigating the case, including a licensing agency, any information relevant to an incident of child abuse or neglect or to a report made for serious emotional damage pursuant to Penal Code 11166.05. (Penal Code 11167)

3. Internal Reporting

The mandated reporter shall not be required to disclose his/her identity to his/her supervisor, the principal, or the Superintendent or designee. (Penal Code 11166)

However, employees reporting child abuse or neglect to an appropriate agency are encouraged, but not required, to notify the principal as soon as possible after the initial telephone report to the appropriate agency. When so notified, the principal shall inform the Superintendent or designee.

The principal so notified shall provide the mandated reporter with any assistance necessary to ensure that reporting procedures are carried out in accordance with law, Board policy, and administrative regulation. At the mandated reporter's request, the principal may assist in completing and filing the necessary forms.

Reporting the information to an employer, supervisor, principal, school counselor, co-worker, or other person shall not be a substitute for making a mandated report to the appropriate agency. (Penal Code 11166)

Release of Child to Peace Officer

When a child is released to a peace officer and taken into custody as a victim of suspected child abuse or neglect, the Superintendent or designee and/or principal shall not notify the parent/guardian, but rather shall provide the peace officer with the address and telephone number of the child's parent/guardian. It is the responsibility of the peace officer or agent to notify the parent or guardian of the situation. (Education Code 48906)

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

The Governing Board believes that a positive learning environment is essential to a quality education. To achieve this goal, school personnel should exercise sound judgement to prevent or protect against behavior which leads to the disruption of learning or which threatens the safety of individuals or property. Ordinarily, suspension should be imposed only when other means of correction fail to bring about proper conduct. School personnel are encouraged to use other interventions or consequences to bring about a change in a student's behavior.

A pupil shall not be suspended from school or recommended for expulsion, unless the superintendent of the school district or the principal of the school in which the pupil is enrolled determines that the pupil has committed an act as defined pursuant to any of subdivisions (a) to (r), inclusive:

- (a) (1) Caused, attempted to cause, or threatened to cause physical injury to another person.
- (2) Willfully used force or violence upon the person of another, except in self-defense.
- (b) Possessed, sold, or otherwise furnished a firearm, knife, explosive, or other dangerous object, unless, in the case of possession of an object of this type, the pupil had obtained written permission to possess the item from a certificated school employee, which is concurred in by the principal or the designee of the principal.
- (c) Unlawfully possessed, used, sold, or otherwise furnished, or been under the influence of, a controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind.
- (d) Unlawfully offered, arranged, or negotiated to sell a controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind, and either sold, delivered, or otherwise furnished to a person another liquid, substance, or material and represented the liquid, substance, or material as a controlled substance, alcoholic beverage, or intoxicant.
- (e) Committed or attempted to commit robbery or extortion.
- (f) Caused or attempted to cause damage to school property or private property.
- (g) Stole or attempted to steal school property or private property.
- (h) Possessed or used tobacco, or products containing tobacco or nicotine products, including, but not limited to, cigarettes, cigars, miniature cigars, clove cigarettes, smokeless tobacco, snuff, chew packets, and betel. However, this section does not prohibit the use or possession by a pupil of his or her own prescription products.

- (j) Unlawfully possessed or unlawfully offered, arranged, or negotiated to sell drug paraphernalia, as defined in Section 11014.5 of the Health and Safety Code.

- (2) Except as provided in Section 48910, a pupil enrolled in kindergarten or any of grades 1 to 3, inclusive, shall not be suspended for any of the acts enumerated in this subdivision, and this subdivision shall not constitute grounds for a pupil enrolled in kindergarten or any of grades 1 to 12, inclusive, to be recommended for expulsion.
- (l) Knowingly received stolen school property or private property.
- (m) Possessed an imitation firearm. As used in this section, "imitation firearm" means a replica of a firearm that is so substantially similar in physical properties to an existing firearm as to lead a reasonable person to conclude that the replica is a firearm.

- (o) Harassed, threatened, or intimidated a pupil who is a complaining witness or a witness in a school disciplinary proceeding for purposes of either preventing that pupil from being a witness or retaliating against that pupil for being a witness, or both.
- (p) Unlawfully offered, arranged to sell, negotiated to sell, or sold the prescription drug Soma.
- (q) Engaged in, or attempted to engage in, hazing. For purposes of this subdivision, "hazing" means a method of initiation or preinitiation into a pupil organization or body, whether or not the organization or body is officially recognized by an educational institution, that is likely to cause serious bodily injury or personal degradation or disgrace resulting in physical or mental harm to a former, current, or prospective pupil. A photograph or other visual recording, as described above, shall include the depiction of a nude, semi-nude, or sexually explicit photograph or other visual recording of a minor where the minor is identifiable from the photograph, visual recording, or other electronic act.

School-Level Complaint Process/Grievance Procedure

Complaints of sexual harassment, or any behavior prohibited by the district's Nondiscrimination/Harassment policy - BP 5145.3, shall be handled in accordance with the following procedure:

1. Notice and Receipt of Complaint: Any student who believes he/she has been subjected to sexual harassment or who has witnessed sexual harassment may file a complaint with any school employee. Within 24 hours of receiving a complaint, the school employee shall report it to the district Coordinator for Nondiscrimination/Principal. In addition, any school employee who observes any incident of sexual harassment involving a student shall, within 24 hours, report this observation to the Coordinator/Principal, whether or not the victim files a complaint. In any case of sexual harassment involving the Coordinator/Principal to whom the complaint would ordinarily be made, the employee who receives the student's report or who observes the incident shall instead report to the Superintendent or designee.

2. Initiation of Investigation: The Coordinator/Principal shall initiate an impartial investigation of an allegation of sexual harassment within five school days of receiving notice of the harassing behavior, regardless of whether a formal complaint has been filed. The district shall be considered to have "notice" of the need for an investigation upon receipt of information from a student who believes he/she has been subjected to harassment, the student's parent/guardian, an employee who received a complaint from a student, or any employee or student who witnessed the behavior.

If the Coordinator/Principal receives an anonymous complaint or media report about alleged sexual harassment, he/she shall determine whether it is reasonable to pursue an investigation considering the specificity and reliability of the information, the seriousness of the alleged incident, and whether any individuals can be identified who were subjected to the alleged harassment.

3. Initial Interview with Student: When a student or parent/guardian has complained or provided information about sexual harassment, the Coordinator/Principal shall describe the district's grievance procedure and discuss what actions are being sought by the student in response to the complaint. The student who is complaining shall have an opportunity to describe the incident, identify witnesses who may have relevant information, provide other evidence of the harassment, and put his/her complaint in writing. If the student requests confidentiality, he/she shall be informed that such a request may limit the district's ability to investigate.

4. Investigation Process: The Coordinator/Principal shall keep the complaint and allegation confidential, except as necessary to carry out the investigation or take other subsequent necessary action. (5 CCR 4964)

The Coordinator/Principal shall interview individuals who are relevant to the investigation, including, but not limited to, the student who is complaining, the person accused of harassment, anyone who witnessed the reported harassment, and anyone mentioned as having relevant information. The Coordinator/Principal may take other steps such as reviewing any records, notes, or statements related to the harassment or visiting the location where the harassment is alleged to have taken place.

When necessary to carry out his/her investigation or to protect student safety, the Coordinator/Principal also may discuss the complaint with the Superintendent or designee, the parent/guardian of the student who complained, the parent/guardian of the alleged harasser if the alleged harasser is a student, a teacher or staff member whose knowledge of the students involved may help in determining who is telling the truth, law enforcement and/or child protective services, and district legal counsel or the district's risk manager.

(cf. 5141.4 - Child Abuse Prevention and Reporting)

5. Interim Measures: The Coordinator/Principal shall determine whether interim measures are necessary during and pending the results of the investigation, such as placing students in separate classes or transferring a student to a class taught by a different teacher.

6. Optional Mediation: In cases of student-on-student harassment, when the student who complained and the alleged harasser so agree, the Coordinator/Principal may arrange for them to resolve the complaint informally with the help of a counselor, teacher, administrator, or trained mediator. The student who complained shall never be asked to work out the problem directly with the accused person unless such help is provided and both parties agree, and he/she shall be advised of the right to end the informal process at any time.

7. Factors in Reaching a Determination: In reaching a decision about the complaint, the Coordinator/Principal may take into account:

- a. Statements made by the persons identified above
- b. The details and consistency of each person's account
- c. Evidence of how the complaining student reacted to the incident
- d. Evidence of any past instances of harassment by the alleged harasser
- e. Evidence of any past harassment complaints that were found to be untrue

To judge the severity of the harassment, the Coordinator/Principal may take into consideration:

- a. How the misconduct affected one or more students' education
- b. The type, frequency, and duration of the misconduct
- c. The identity, age, and sex of the harasser and the student who complained, and the relationship between them
- d. The number of persons engaged in the harassing conduct and at whom the harassment was directed
- e. The size of the school, location of the incidents, and context in which they occurred
- f. Other incidents at the school involving different students

8. Written Report on Findings and Follow-Up: No more than 30 days after receiving the complaint, the Coordinator/Principal shall conclude the investigation and prepare a written report of his/her findings. This timeline may be extended for good cause. If an extension is needed, the Coordinator/Principal shall notify the student who complained and explain the reasons for the extension. The report shall include the decision and the reasons for the decision and shall summarize the steps taken during the investigation. If it is determined that harassment occurred, the report shall also include any corrective actions that have or will be taken to address the harassment and prevent any retaliation or further harassment. This report shall be presented to the student who complained, the person accused, the parents/guardians of the student who complained and the student who was accused, and the Superintendent or designee.

In addition, the Coordinator/Principal shall ensure that the harassed student and his/her parent/guardian are informed of the procedures for reporting any subsequent problems. The Coordinator/Principal shall make follow-up inquiries to see if there have been any new incidents or retaliation and shall keep a record of this information.

Enforcement of District Policy

The Superintendent or designee shall take appropriate actions to reinforce the district's sexual harassment policy. As needed, these actions may include any of the following:

1. Removing vulgar or offending graffiti
2. Providing training to students, staff, and parents/guardians about how to recognize harassment and how to respond
3. Disseminating and/or summarizing the district's policy and regulation regarding sexual harassment
4. Consistent with the laws regarding the confidentiality of student and personnel records, communicating the school's response to parents/guardians and the community
5. Taking appropriate disciplinary action

In addition, disciplinary measures may be taken against any person who is found to have made a complaint of sexual harassment which he/she knew was not true.

During the first two weeks of school, Eastside Elementary School teachers will carefully review the behavior expectations in each class and all areas of the school. Teachers will infuse their lessons on behavior expectations with the philosophy of our anti bullying program, Olweus. Serious consequences will be reserved for students who choose to disregard the rules. All rules apply to the students of Eastside Elementary School during the school day as well as during extra-curricular activities.

SELF-DISCIPLINE

One of the most important lessons schools teach is self-discipline, which is supported by Restorative Practices. Training in this area helps to develop one's self-control, character, orderliness, and efficiency through the use of Move This World and Restorative Practices.

DISCIPLINE

Disciplinary measures include Restorative Practices, Community Circles, Counseling, Parent communication. At times, if all alternative measures have been exhausted, some discipline may result in suspension and possible expulsion.

Senate Bill 671 – Dangerous, Violent, or Unlawful Activities (applies to all schools): SB 671, effective January 1, 2024, requires all safety plans to include procedures to assess and respond to reports of any dangerous, violent, or unlawful activity being conducted or threatened to be conducted at the school, at an activity sponsored by the school, or on a school bus serving the school.

(J) Hate Crime Reporting Procedures and Policies

Eastside Union S.D. Board Policy BP 51-45.9

On average, 3rd-6th grade responded favorably when answering questions regarding School Belonging and School Climate. Of the parents who participated, they responded favorably when answering questions regarding School Safety. Teachers responded favorably in relation to School Climate.

(K) Opioid Prevention and Life-Saving Response Procedures

(L) Response Procedures for Dangerous, Violent, or Unlawful Activity

PRINCIPAL/SITE ADMINISTRATOR ACTIONS:

Secure perimeter

Assess the type of activity to determine the level of risk to the safety of students and staff. In categorizing the risk, attempt to determine:

1) Is the activity moving towards a medium or high level of violent action?

a. Is a SHELTER IN PLACE or LOCKDOWN necessary

b. Activate Notifications or Request Support

2) Is there evidence to suggest movement from internal to external threat assessment?

3) Is 911 necessary? Is contacting County Child Services necessary? Is the Psychiatric Emergency Team (PET) necessary to respond?

High violence potential qualifies for arrest or hospitalization. Call 911

Safety is endangered when there is: (a) sufficient evidence of repetitive/ intentional infliction of emotional distress upon others; or (b) sufficient evidence of the unintentional infliction of emotional distress upon others.

Notify police (dial 911), if the safety of students or staff is endangered. Provide the exact location and nature of the incident and school response actions.

Isolate the threatening person from other students and staff, if it is safe to do so. Initiate appropriate response actions, which may be LOCKDOWN or EVACUATION. Cancel all outside activities.

Respond to students, staff or visitors who are prone to overt displays of anger in a calm, non-confrontational manner. If an immediate threat is not clearly evident, attempt to diffuse the situation.

If an individual is armed with any type of weapon, USE EXTREME CAUTION. Do not attempt to remove the weapon from the possession of the individual. Allow the police to do so.

Facilitate a meeting with student(s) and family to review expectations.

Facilitate a staff meeting to review plans for keeping school safe. Enlist the support of community service providers.

STAFF ACTIONS:

If any students are outside, move them inside the building or away from the site of the activity. Keep students calm and quiet. Keep students away of any unsafe locations. Make sure doors are secure.

Inside the classroom, institute SHELTER IN PLACE OR LOCKDOWN, whichever is necessary. Make sure doors are secure.

Remain with students until ALL CLEAR is given.

Campus Safety Supervisors have main campus keys to the campus and will open up any available rooms for student shelter.

Communicate on radios.

Safety Plan Review, Evaluation and Amendment Procedures

The Eastside Elementary School Comprehensive Safety Plan will be reviewed, evaluated and amended (if necessary) each year. The plan is also communicated to and consulted with with LA County Fire/Sheriff Department.

Eastside Elementary School Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

Eastside Elementary School: Management, Planning and Intelligence, Operations, Logistics, and Finance and Administration

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

The first response to an emergency is to determine the type of emergency that has occurred. Procedures for several different types of emergencies are listed in the following section.

Step Two: Identify the Level of Emergency

The second step in responding to an emergency is to determine the type of emergency. For schools, emergency situations can range from a small fire to a major earthquake. To assist schools in classifying emergency situations, there is a three tiered rating below:

- Level 1 Emergency: A minor emergency that is handled by school personnel without the assistance from outside agencies, for example but not limited to, a temporary power outage, a minor earthquake, or a minor injury in the play yard.
- Level 2 Emergency: A moderate emergency that requires assistance from outside agencies, such as a fire or a moderate earthquake, or a suspected act of involving a potentially hazardous material.
- Level 3 Emergency: A major emergency event that requires assistance from outside agencies such as a major earthquake, civil disturbance or a large-scale act of terrorism. For Level 3 emergencies, it is important to remember that the response time of outside agencies may be seriously delayed.

Step Three: Determine the Immediate Response Action

Once the type and extent of an emergency have been identified, school personnel can determine if an immediate response action is required. The most common immediate response actions initiated during school emergencies are:

- Drop, Cover and Hold On: During Earthquakes/Drills students and staff protect themselves by dropping, taking cover and holding on until the danger passes.
- Soft Lock Down: Safe in Place: Students and staff are kept indoors in order to isolate them from possible harm outside but procedures, such as escorting to restrooms, lunch and nurse are put into place.
- Lock Down: Students and staff are kept in a designated locked area with blinds closed and lights off sitting silently until danger has passed, such as an intruder on campus.
- Evacuate Building: Students and staff are escorted outside to an assembly area if it has been determined that it is too dangerous to remain indoors.
- Evacuate Campus: Students and staff are escorted to an off-site assembly area if it has been determined that it is too dangerous to remain on campus.
- All Clear: Notification is given that normal school operations should resume.

Step Four: Communicate the Appropriate Response Action

Once the type of immediate response action is determined, the incident commander must immediately inform the site's staff which response action to take. The most important method of communication depends on the response action selected. When announcing what response to take, avoid codes, jargon, or any other potentially confusing vocabulary. Be clam, direct, and clear in your announcements.

- **Drop, Cover and Hold On:** Immediately use the site's school-wide communication system to instruct students and staff to protect themselves by moving into a "Drop, Cover and Hold On" until the danger passes. Time is the most urgent matter with this response action as the emergency may take place before the announcement can be made.
- **Soft Lock Down: Safe in Place:** Immediately use the site's school-wide communication system to instruct students and staff that they are to stay indoors until further notice.
- **Lock Down:** Immediately use the site's school-wide communication system to instruct staff to lock all exterior doors, to close any open windows along with blinds, and to keep students as far away as possible from any windows until further notice.
- **Evacuate Building:** Immediately use the site's fire alarm bell system to notify students and staff that they are to proceed to the site's outside assembly area.
- **Evacuate Campus:** Immediately use the site's fire alarm bell system to notify students and staff that they are to proceed to the site's outside assembly area. From there, notify staff and students using a bullhorn that it has been determined that it is too dangerous to remain on campus. Provide instructions on how staff and students will be relocated.
- **All Clear:** Use the site's school-wide communication system to notify staff and students that normal school operations should resume.

Types of Emergencies & Specific Procedures

Aircraft Crash

EMERGENCY RESPONSE

AIRCRAFT CRASH

Emergency response will depend on the size of the aircraft, nature of the crash, and proximity to the school. If it is safe to remain inside the building, all students should be kept in the school under supervision. The crash may also result in an explosion, chemical spill or utility interruption.

Aircraft crashes into the school

STAFF ACTIONS:

Notify Principal.

Move students away from the immediate vicinity of the crash.

EVACUATE students from the building using primary and/or alternate fire routes to a safe assembly area away from the crash scene.

Take class roster/nametags and emergency

Emergency backpack.

Check the school site to assure that all students have evacuated.

Take attendance at the assembly area.

Report missing students to the Principal /designee and emergency response personnel.

Maintain control of the students a safe distance from the crash site.

Care for the injured, if any.

Escort students back to the school site when emergency response officials have determined it is safe to return to the building.

PRINCIPAL/SITE ADMINISTRATOR ACTIONS:

Notify police and fire department (call 911).

Determine immediate response procedures, which may include EVACUATION, OFF-SITE EVACUATION or DIRECTED TRANSPORTATION.

Notify District Superintendent, who will contact the Office of Emergency Services.

Arrange for first aid treatment and removal of injured occupants from the building.

Secure area to prevent unauthorized access until the Fire Department arrives. Ensure that students and staff remain at a safe distance from the crash.

Account for all building occupants and determine the extent of injuries.

Do not re-enter the building until the authorities provide clearance to do so.

STAFF ACTIONS:

Notify Principal.

Move students away from the immediate vicinity of the crash.

Remain inside with students unless subsequent explosions or fire endanger the building.

PRINCIPAL/SITE ADMINISTRATOR ACTIONS:

Notify police and fire department (call 911).

Initiate SHELTER IN PLACE, if warranted.

Initiate REVERSE EVACUATION for students and staff outside or direct them to the designated areas until further instructions are received.

Ensure that students and staff remain at a safe distance from the crash.

Notify District Superintendent, who will contact the Office of Emergency Services.

Fire department officials will secure area to prevent unauthorized access. Do not enter affected areas until the appropriate authorities provide clearance to do so.

Animal Disturbance

If there is a rabid or uncontrollable animal on campus, implement this procedure when any wild animal threatens the safety of the students and staff

PRINCIPAL/SITE ADMINISTRATOR ACTIONS:

Isolate the students from the animal. Close and lock all doors as a means to isolating the animal.

If the animal is outside, keep students inside and institute a Soft Lockdown

If the animal is inside, initiate an EVACUATION outside to a protected area away from the animal

Contact the Animal Control for assistance in removing the animal.

If the animal injures anyone, seek medical assistance from the school nurse.

Notify parent/guardian and recommended health advisor.

STAFF/TEACHER ACTIONS:

If the animal is outside, keep students inside. Lock doors and keep students away from the windows.

If the animal is inside, EVACUATE students to a sheltered area away from the animal.

Notify the principal if there are any injuries.

Armed Assault on Campus

PRINCIPAL/SITE ADMINISTRATOR ACTIONS:

Assess the type of threat to determine the level of risk to the safety of students and staff. In categorizing the risk, attempt to determine:

- 1) Is the individual moving towards violent action?
- 2) Is there evidence to suggest movement from thought to action?

High violence potential qualifies for arrest or hospitalization.

Safety is endangered when there is: (a) sufficient evidence of repetitive/ intentional infliction of emotional distress upon others; or (b) sufficient evidence of the unintentional infliction of emotional distress upon others.

Notify police (dial 911), if the safety of students or staff is endangered. Provide the exact location and nature of the incident and school response actions.

Isolate the threatening person from other students and staff, if it is safe to do so. Initiate appropriate response actions, which may be LOCKDOWN or EVACUATION. Cancel all outside activities.

Respond to students who are prone to overt displays of anger in a calm, non-confrontational manner. If an immediate threat is not clearly evident, attempt to diffuse the situation.

If an individual is armed with any type of weapon, USE EXTREME CAUTION. Do not attempt to remove the weapon from the possession of the individual. Allow the police to do so.

Facilitate a meeting with student(s) and family to review expectations.

Facilitate a staff meeting to review plans for keeping school safe. Enlist the support of community service providers.

STAFF ACTIONS:

If any students are outside, move them inside the building or away from the site of the threat/assault. If unable to do so, have students lie down and cover their heads. Keep students calm.

Inside the classroom, institute LOCKDOWN.

Remain with students until ALL CLEAR is given.

Campus Safety Supervisors have main campus keys to the campus and will open up any available rooms for students to evacuate to.

Biological or Chemical Release

This is an incident involving the discharge of a biological substance in a solid, liquid or gaseous state. Such incidents may include the release of radioactive materials. A biological agent can be introduced through:

- postal mail, via a contaminated letter or package
- a building's ventilation system
- a small explosive device to help it become airborne
- a contaminated item such as a backpack, book bag, or other parcel left unattended
- the food supply
- aerosol release (for example, with a crop duster or spray equipment)

Defense against biological release (e.g. anthrax, smallpox, plague, ricin, etc.) is difficult because it usually appears after some time has lapsed. Indicators that may suggest the release of a biological or chemical substance include multiple victims suffering from: watery eyes, choking or breathing difficulty, twitching or the loss of coordination. Another indicator is the presence of distressed animals or dead birds. Determine which scenario applies and implement the appropriate response procedures.

Outside the building

STAFF ACTIONS:

Notify principal.

Move students away from immediate vicinity of danger (if outside, implement REVERSE EVACUATION). (A REVERSE EVACUATION is used when conditions inside the school are safer than conditions outside. When a reverse evacuation announcement is made, students and staff are moved as quickly as possible back into the school building where student accountability and release procedures begin.)

Segregate individuals who have been topically contaminated by a liquid from unaffected individuals. Send affected individuals to a designated area medical attention.

Follow standard student assembly, accounting and reporting procedures.

SITE ADMINISTRATOR ACTIONS:

Initiate SHELTER IN PLACE.

Shut off HVAC units.

Move to central location where windows and doors can be sealed with duct tape.

Call 911. Provide location and nature of the emergency and school actions taken.

Notify District Superintendent of the situation.

Turn on a battery-powered commercial radio and listen for instructions.

Complete the Biological and Chemical Release Response Checklist

Remain inside the building until the Department of Health or Fire Department determines it is safe to leave.

Arrange for psychological counseling for students and staff.

Inside the building

STAFF ACTIONS:

Notify principal or site administrator.

Segregate individuals who have been topically contaminated by a liquid from unaffected individuals.

Implement EVACUATION or OFF-SITE EVACUATION, as appropriate. Send affected individuals to a designated area for medical attention.

Follow standard student assembly, accounting and reporting procedures.

Prepare a list of those who are in the affected area to provide to emergency response personnel.

SITE ADMINISTRATOR ACTIONS:

Initiate EVACUATION of building or OFF-SITE EVACUATION to move students away from immediate vicinity of danger.

Move up-wind from the potential danger.

Call 911. Provide exact location and nature of emergency.

Designate security team to isolate and restrict access to potentially contaminated areas.

Wait for instructions from emergency responders -- Health or Fire Department.

Notify District Superintendent of the situation.

Arrange for immediate psychological counseling for students and staff.

Complete the Biological and Chemical Release Response Checklist

Wait to return to the building until it has been declared safe by local HazMat or appropriate agency.

THOSE WHO HAVE DIRECT CONTACT WITH BIOLOGICAL AGENT:

Wash affected areas with soap and water.

Immediately remove and contain contaminated clothing

Do not use bleach on potentially exposed skins.

Remain in safe, but separate area, isolated from those who are unaffected, until emergency response personnel arrive.

Bomb Threat/ Threat Of violence

Response to a Bomb Threat is initiated upon the discovery of a suspicious package on campus grounds or receipt of a threatening phone call that may present a risk of an explosion.

Procedure:

1. If the threat is received by telephone, the person receiving the call should attempt to keep the caller on the telephone as long as possible and alert someone else to call "911" – telling the operator, "This is [state name] from [state school]. We are receiving a bomb threat on another line. The number of that line is [state phone number]."
2. The person answering the threat call should ask the following questions, record the answers and then immediately notify the School Administrator:
 - When is the bomb going to explode?
 - Where is it?
 - What will cause it to explode?
 - What kind of bomb is it?
 - Who are you?
 - Why are you doing this?
 - What can we do for you to avoid the bomb from exploding?
 - How can you be contacted?
3. The School Administration will direct the Search and Rescue Team(s) to search for suspicious packages, boxes or foreign objects. While conducting the search, all cell phones, beepers and hand-held radios should be turned off since many modern day explosive devices can be triggered by radio frequencies.
4. If a suspicious object is identified, one member of the Search and Rescue Team will report the discovery to the School Administrator while the remaining team members attempt to secure the immediate area.
5. No attempt should be made to investigate or examine the object.
6. After the search, the School Administrator will determine the appropriate Immediate Response Action(s) to announce, which may include DUCK AND COVER, LOCK DOWN, EVACUATE BUILDING or OFF-SITE EVACUATION.
7. When a suspicious object or bomb is found, the School Administrator shall issue the EVACUATE BUILDING action. Staff and students will evacuate the building using prescribed routes or other safe routes to the Assembly Area.
8. In the event of an evacuation, Teachers will bring their student roster and take attendance at the Assembly Area to account for students. Teachers will notify the Assembly Area Team of missing students.
9. The School Administrator will notify "911", if not previously notified will provide the exact location (e.g., building, room, area) of the potential bomb, if known.
10. The School Administrator will notify the Superintendent of the situation.
11. The Psychological First Aid Team will convene onsite and begin the process of counseling and recovery.
12. Do not resume school activities until the affected buildings have been inspected by proper authorities and determined to be safe. The School Administrator will give the ALL CLEAR signal.

Bus Disaster

Each school should maintain a folder for each bus serving the school. This folder should contain rosters, including an emergency telephone number for each student assigned to ride the bus. The teacher in charge of a special activity trip should prepare trip bus folders; one copy of the student emergency contact information should be placed in the trip folder and a second copy should accompany the teacher on the trip. Bus drivers may need to make spontaneous, independent decisions, based on the nature of the emergency, age of children, location of bus and other unique circumstances.

BUS DRIVER:

Turn off power, ignition and headlights. Use safety lights, as appropriate.
Evaluate the need for evacuation.
Remain with the vehicle. Notify California Highway Patrol.

STAFF ACTIONS AT THE SCENE:

Call 911, if warranted.
Notify principal.
Administration will notify Superintendent.
Implement basic first aid until emergency medical services and/or law enforcement arrives and takes charge of the emergency.
Move all uninjured students to a safe distance from the accident.
Document the names of all injured students and their first aid needs.

PRINCIPAL/SITE ADMINISTRATOR ACTIONS:

Notify law enforcement.
Notify parents/guardians of all students on the bus as soon as accurate information is available.
Designate a school staff representative to proceed to any medical treatment facility to which an injured student has been taken to assist parents and provide support to students, as appropriate.
Notify school community about the incident and status of injured students and/or staff. Prepare news release for media, if appropriate.

Disorderly Conduct

PRINCIPAL/SITE ADMINISTRATOR ACTIONS:

If the students are engaging in civil disobedience, keep the students confined to one room in the school building.
Set up a communication exchange with the students, staff and principal. Try to restore order.
If unable to calm students and violent or uncontrolled behavior is probably, notify police of situation and request assistance.
Send home with students for their parents/guardians a brief written description of the emergency, how it was handled and, if appropriate, what steps are being taken in its aftermath.

Outside of School

SITE ADMINISTRATION ACTIONS:

Call 911.
Move any students who are outside into the school building. If unable to do so, have students lie down and cover their heads.
Once students are in the school building, lock and secure all exterior doors, including restrooms. Have custodians remove trash containers and other burnable items from public access.
Cancel all outside activities.
Maintain an accurate record of events, conversations and actions.
Assign staff members to assist nurse as necessary.

STAFF ACTIONS:

Close and lock classroom doors. Close all curtains and blinds. Keep students away from windows and take precautions to protect them from flying glass in the event windows are broken.
Care for the injured, if any.
Remain with students within locked classrooms until all clear is given, regardless of bells and the school schedule.

Earthquake

We will have a minimum of 3 earthquake drills throughout the school year. Please practice and follow safety procedures:

- . Post Fire Drill information on or near the classroom door and place in a substitute folder.
- . Take class list with you during the drill and take roll.
- . Walk safely and in single file when possible'
- . Close windows. Turn off lights and fans.
- . Close classroom doors but do not lock them.

EARTHQUAKE

A sizable Earthquake will cause district-wide ALARM. All employees will become part of an integral plan to ensure the safety of everyone. The following guideline begins at the district level to demonstrate how each level will respond in the event of a district-wide catastrophic event. These procedures emphasize the importance of uniform communication at all levels. Schools should plan operating on their own for at least 72 hours.

At first indication of ground movement,
ALL STAFF WILL:

1. Drop, Cover and Hold On
2. The District Emergency Operations Director will determine the appropriate level of activation based on current situation and begin communication with the Site Incident Commander(s).
3. The District will initiate the Emergency Operations Center (EOC) who will:
 - a. Ensure that communication with the other sites is established.
 - b. Establish communication with the state, county, or regional Emergency Operation Centers.
 - c. Begin communication with resources to mobilize equipment and supplies.
 - d. After the situation is assessed an Incident Action Plan will be developed and management from all teams will begin.

THE PRINCIPAL OR SITE DESIGNEE WILL:

1. Following initial ground movement activate the Site Incident Command Center which will:
 - a. If able call 9-1-1 to report immediate damage.
 - b. Contact the District Emergency Operations Center to establish communication.
 - c. Begin assembling teams at the Incident Command Post.
2. Oversee all activities of organizing teams.
3. Meet with Team Leaders to establish Incident Action Plan.
4. Determine safe evacuation with Operations Team Leader and supporting teams, analyzing safest routes; if necessary discuss Search and Rescue procedures and begin to develop strategies.
5. With the assistance of Team Leaders, begin implementing the Emergency Plan, (i.e., shelter, first aid, student release, etc.)

TEACHERS (IN THE CLASSROOM) WILL:

1. At the first indication of ground movement, teachers and students are to DROP to the ground. This movement should be activated by a simple command (such as stating "drop") that has been practiced in drills.
2. Seek protective COVER under or near desks, tables, or chairs in a kneeling or sitting position.
3. HOLD onto the table or chair legs. Furniture provides protection from falling objects.
4. If no cover is available, instruct students to crouch against an inside wall; stay away from outside walls, door jams, windows or other expanses of glass or potential falling objects; cover head with arms.
5. Always position back to the window. Never face the window. Protect eyes from flying glass and debris by using arms and closing eyes tightly.
6. Remain in the DROP position until the ground movement has ended. Be prepared to repeat the DROP, COVER, and HOLD during aftershocks.
7. Do not run through a building or run outside. Falling debris is hazardous!
8. Following ground movement, check for injuries.
9. Evacuation is not automatic! Use good judgment by first checking the condition of the building, outside area (fallen trees, power lines, etc.) If unsafe, stay put!

10. If evacuating wear orange or green vest to signal status of classroom; be ready to report missing, injured or extra students.
11. Plan to use alternate routes to assembly area.
12. If possible, check on safety of "buddy".
13. Do not attempt to move an injured person unless in immediate danger.
14. Do not use matches or lighters, light fires, or operate electrical switches, as there may be gas leaks.
15. When able, initiate extra duties as assigned.

TEACHERS AND STAFF (WITHIN THE BUILDING) WILL:

1. At the first indication of ground movement, DROP to the ground.
2. Take COVER under any available desk, table, or bench. If in a hallway, drop next to an inside wall in a kneeling position and cover head and neck with arms and hands. Always position back to a window. Never face the window. Close eyes tightly.
3. HOLD onto the furniture. Furniture provides protection from falling objects.
4. Remain in DROP position until the ground movement has ended. Be prepared to repeat the DROP, COVER, and HOLD during aftershocks.
5. After ground movement ends, check for injuries.
6. Evacuation is not automatic. Use good judgment by first checking the condition of the building, outside area (fallen trees, power lines, etc.) If unsafe, stay put!
7. If evacuation is determined to be safe, advance to assembly. Check for fallen trees power lines, etc. before attempting evacuation. Wear orange or green vest to signal status of classroom.
 - a. Be prepared to report missing, extra or injured students.
8. When able, initiate extra duties as assigned.

TEACHERS AND STAFF (OUTSIDE OF BUILDING):

1. At first indication of ground movement, move away from overhead hazards such as power lines, trees and buildings. DROP to the ground and COVER head with arms and hands. Lie flat, face down; close eyes tightly. Wait for aftershocks to subside before standing.
2. Do not re-enter buildings until it is determined safe.
3. Move to nearest safe assembly area.
4. When able, report students in your care.

EARTHQUAKE AFTER HOURS:

In the event an earthquake occurs during non- school hours:

1. The School Administrator and the Plant Manager will assess damages to determine any necessary corrective actions. The School Administrator may direct the Fire Suppression and HazMat Team to participate in the assessment.
2. The School Administrator should confer with the Local District Superintendent on identified damages to determine if the school should be closed.
3. If the school must be closed, the School Administrator will activate Parent Alert System and School Personnel Alert System.

Explosion or Risk Of Explosion

Emergency response will depend on the type of explosion (smoke bomb, chemical lab incident, etc.) and proximity to the school. All students should be kept away from the explosion and under supervision.

SITE ADMINISTRATOR:

Determine whether site evacuation should be implemented. If so, sound fire alarm. This will automatically implement action to EVACUATE the building. EVACUATION may be warranted in some buildings but others may be used for SHELTER IN PLACE.

Notify Fire Department (call 911). Provide school name, address, exact location within the building, your name and phone number and nature of the emergency.

Secure area to prevent unauthorized access until the Fire Department arrives.

Advise the District Superintendent of school status.

Notify emergency response personnel of any missing students.

Notify utility company of breaks or suspected breaks in utility lines or pipes. Provide school name, address, location within building, your name and phone.

Direct a systematic, rapid and thorough approach to search the building and surrounding areas. Check classrooms and work areas, public areas (foyers, offices, bathrooms and stairwells), unlocked closets, exterior areas (shrubby, trash cans, debris boxes) and power sources (computer rooms, gas valves, electric panels, telephone panels).

Determine if Student Release should be implemented. If so, notify staff, students and parents.

If damage requires the school to be closed, notify parents and staff of school status and alternate site for classroom instruction. Do not return to the school building until it has been inspected and determined safe by proper authorities.

STAFF ACTIONS:

Initiate DROP, COVER AND HOLD ON.

- If explosion occurred inside the school building, EVACUATE to outdoor assembly area. Keep students and staff at a safe distance from the building(s) and away from fire-fighting equipment.
- Check to be sure all students have left the school site. Remain with students throughout evacuation process.
- Upon arrival at assembly area, check attendance. Report status to site administrator immediately.
- Render first aid as necessary.
- Do not return to the building until the emergency response personnel determine it is safe to do so.
- If explosion occurred in the surrounding area, initiate SHELTER IN PLACE. Keep students at a safe distance from site of the explosion.

Fire in Surrounding Area

A fire in an adjoining area, such as a wildland fire can threaten the school building and endanger the students and staff. Response actions are determined by location and size of the fire, its proximity to the school and the likelihood that it may endanger the school community.

SITE ADMINISTRATOR ACTIONS:

Determine if EVACUATION of school site is necessary.

Contact local fire department (call 911) to determine the correct action for your school site.

If necessary, begin evacuation of school site to previously identified safe site using school evacuation plan. If needed, contact bus dispatch for OFF-SITE EVACUATION and

DIRECTED TRANSPORTATION by bus.

Direct inspection of premises to assure that all students and personnel have left the building.

Notify the school district where the school has relocated and post a notice on the office door stating the temporary new location.

Monitor radio station for information.

Do not return to the building until it has been inspected and determined safe by proper authorities.

STAFF ACTIONS:

If students are to be evacuated, take attendance to be sure all students are present before leaving the building site.

Stay calm. Maintain control of the students a safe distance from the fire and fire fighting equipment.

Take attendance at the assembly area. Report any missing students to the principal/site administrator and emergency response personnel.

Remain with students until the building has been inspected and it has been determined safe to return to.

Fire on School Grounds

Fire on School Grounds

- . Post Fire Drill information on or near the classroom door and place in substitute folder.
- . Wait for all clear before proceeding outside.
- . Take class list with you during the drill.
- . Walk safely and in single file lines when possible.
- . Close windows.
- . Turn off lights and fans.
- . Close classroom door.
- . Check that all students are accounted for when you reach your safe destination.
- . Contact administration or firefighter if a child is missing.
- . Remain at least 100 feet away from the building.
- . When the "All Clear" bell has rung, return safely to class.
- . During practice drills each and every staff member needs to participate until all clear.

Fire Exits

All classrooms: Playground field area on their assigned classroom number. Classroom numbers are painted on the south side of the playground blacktop. The teacher is to stand on the number, facing south. Students line up single-file on the grass facing north.

Room: Office, Nurse Office, Computer Lab, and Library in front the school in parking lot. Room: Cafeteria, Kitchen in the rear towards the field.

Flooding

Flooding could threaten the safety of students and staff whenever storm water or other sources of water threaten to inundate school grounds or buildings. Flooding may occur if a water pipe breaks or prolonged rainfall causes urban streams to rise. Flooding may also occur as a result of damage to water distribution systems such as failure of a dam or levee. If weather-related, an alert message will be broadcast over the weather radio station.

SITE ADMINISTRATOR ACTIONS:

Issue STAND BY instruction. Determine if evacuation is required.

Notify local police department of intent to EVACUATE, the location of the safe evacuation site and the route to be taken to that site.

Delegate a search team to assure that all students have been evacuated.

Issue DIRECTED TRANSPORTATION instruction if students will be evacuated to a safer location by means of buses and cars.

Post a notice on the office door stating where the school has relocated and inform the District Office.

Monitor weather station for flood information.

Notify District Superintendent of school status and action taken.

Do not allow staff and students to return to the building until proper authorities have determined that it is safe to do so.

STAFF ACTIONS:

If warranted, EVACUATE students using evacuation plan. Take the class roster, emergency backpack and student comfort kits. Take attendance before leaving the campus.

Remain with students throughout the evacuation process.

Upon arrival at the safe site, take attendance. Report any missing students to principal/site administrator and emergency response personnel.

Do not return to school building until it has been inspected and determined safe by property authorities.

Loss or Failure Of Utilities

Failure of any of the utilities (electricity, gas, water) during school hours constitutes a condition that must be dealt with on a situational basis. Advance notice may be received from a utility company regarding loss of service. In many cases, such loss of service will be of short duration and require no special action other than notifying staff of the temporary interruption of service.

SITE ADMINISTRATOR:

Notify utility company. Provide the following information:

1. Affected areas of the school site
2. Type of problem or outage
3. Expected duration of the outage, if known
 - Determine length of time service will be interrupted.
 - Determine desired action, which may include relocation of students and staff, notification of parents, and alternate food service.
 - If disruption in service will severely hamper school operation, notify students and staff by appropriate means.
 - Use messengers with oral or written word as an alternate means of faculty notification.
 - Notify District Office of loss of service.
 - Implement plan to provide services without utilities or with alternate utilities.

Motor Vehicle Crash

A motor vehicle crash may result in a fuel or chemical spill on school property. If the crash results in a utility interruption, refer to the section on Utility Failure.

SITE ADMINISTRATOR ACTIONS:

Notify police and fire department (call 911).

Determine immediate response procedures, which may include EVACUATION, OFF-SITE EVACUATION or DIRECTED TRANSPORTATION.

Arrange for first aid treatment and removal of injured occupants from building.

Secure area to prevent unauthorized access until the public safety officials (police, sheriff, fire department) arrive.

Ensure that students and staff remain at a safe distance from the crash.

Account for all building occupants and determine extent of injuries.

Notify District Superintendent.

STAFF ACTIONS:

Notify Principal.

Principal or Admin designee will notify Superintendent.

Move students away from immediate vicinity of the crash.

EVACUATE students to a safe assembly area away from the crash scene. Take class roster/nametags and emergency backpack.

Check school site to assure that all students have evacuated.

Take attendance at the assembly area.

Report missing students to the principal /designee and emergency response personnel.

Maintain control of the students a safe distance from the crash site.

Care for the injured, if any.

Escort students back to the to the school site when emergency response officials have determined it is safe to return to the building.

Pandemic

In consultation with school and community health officials, and consistent with guidance offered by the CDC, draft communication messages for school community members that provide updated information about COVID-19 and how to remain healthy. Promote daily preventive actions for all staff, students, and families.

Wash hands multiple times a day for at least 20 seconds.

Don't share food or drinks.

Give elbow bumps instead of handshakes.

Encourage students and school staff members to eat a balanced diet, get enough sleep, and exercise regularly to help them develop strong immune systems capable of fighting illness.

Public health actions also include activities that help reduce the spread of infectious diseases.

For example:

Know the symptoms of COVID-19 and ensure that information is made available to the school community in developmentally appropriate ways.

Students and staff can and will be given COVID rapid tests on campus if required or suggested.

Psychological Trauma

Crisis management at Eastside Elementary School specifies actions during and subsequent to any emergency that may have a psychological impact on students and staff, such as an act of violence; the death of a student or staff member; an earthquake or other natural disaster; a serious environmental problem; or ethnic and racial tensions. Emergencies like those described above usually produce one or more of the following conditions:

- Temporary disruption of regular school functions and routines.
- Significant interference with the ability of students and staff to focus on learning.
- Physical and/or psychological injury to students and staff.
- Concentrated attention from the community and news media.

As a result of such emergencies, students and staff may exhibit a variety of psychological reactions. As soon as the physical safety of those involved has been insured, attention must turn to meeting the emotional and psychological needs of students and staff.

Procedure:

1. The School Administrator will establish Psychological First Aid Team, which has primary responsibility for providing necessary assistance after all types of crises.
2. The Psychological First Aid Team will assess the range of crisis intervention services needed during and following an emergency.
3. The Psychological First Aid Team will provide direct intervention services.
4. If there is a need for additional assistance, the School Administrator will notify the Local District Superintendent.
5. The Psychological First Aid Team will advise and assist the School Administrator to restore regular school functions as efficiently and as quickly as possible.
6. In performing their duties, the Psychological First Aid Team members will limit exposure to scenes of trauma, injury and death.
7. The Psychological First Aid Team will provide ongoing assessment of needs and follow-ups services as required.

Suspected Contamination of Food or Water
